#### INTRODUCTION

This pamphlet is designed to provide customers with information to prepare your Privately Owned Vehicle (POV) for storage. The successful storage of your POV is not a matter of chance. It is a result of proper advance preparation and planning. It's your POV. Ask questions. Be involved. Read what you sign. Contact your local transportation office prior to making any plans to store a POV.

NOTE: Ensure you have sufficient funds available in the event of unexpected delays/expenses to, from, or at the POV Processing Center. Suggest you call in advance.

# WHO CAN STORE A POV

You are eligible to store a POV if:

- you are member of the U.S. armed forces;
- and are ordered to make a PCS to a foreign OCONUS PDS where POVs can not be shipped or where extensive modification of the vehicle would be required.
- have a letter form your transportation office authorizing POV storage.

#### - Your Allowance

- The allowance to store a single POV under SDDCs Global POV Contract (GPC) is limited to a permanent change of station to which a POV is not permitted to be transported or the vehicle requires extensive modification. The transportation office will determine your allowance based on your PCS orders and Military Service guidance and MUST issue a letter of authorization for POV storage. Service members can turn in their POV at any Vehicle Processing Center (VPC), CONUS/OCONUS whether operated by the DOD or the GPC contractor for storage in CONUS under the GPC contract.
- Service members have the option to self procure their own POV storage and be reimbursed up the Government cost. Service members must contact their local TO/TMO for letter of authorization to self-procure prior to placing the vehicle in storage.

## - Restrictions

- Only **one** POV owned or leased by you or your dependent and for your personal use may be placed in storage at Government expense.
- Once the POV goes into storage it will remain in storage during the service member's tour of duty. When the vehicle is removed from storage it cannot be returned to storage at Government expense under the same orders.
- Storage of nonconforming POVs in CONUS is PROHIBITED. See instructions for shipping nonconforming POVs in the "Shipping Your POV" pamphlet under subject NONCONFORMING POVs.

#### INSURANCE AND LICENSING

Insurance and Licensing, if required, will be the responsibility of the service member. The vehicle will be stored on private property and there is no requirement for insurance and licensing while in storage.

# **TYPES OF POVS YOU MAY STORE**

Only self-propelled, wheeled motor vehicles can be stored. This includes automobiles, station wagons, jeeps, vans, and pickups. Other passenger-carrying, multipurpose motor vehicles designed for overland ground transportation not specifically listed above may qualify; however, these generally require a written certification stating the vehicle is for personal use as a passenger-carrying vehicle.

#### PROPANE TANKS

Vehicles with propane tanks will only be accepted when the propane tank is an integral part of the vehicle used to power the engine or for other purposes and will require considerable cost for the removal of the tank. The propane tanks allowed must be purged and certified before the POV is turned at the vehicle processing center or port. A label should be affixed or tagged to the tank. The person turning in the vehicle must produce written authority that the tank is empty or has been purged. New and empty tanks meet these requirements. The certification must come from an individual or firm authorized to purge propane tanks. Loose tanks such as that use for gas stoves or barbeques and are readily accessible for removal will not be accepted.

## WHAT YOU MAY LEAVE IN YOUR POV

You must ensure only authorized personal articles remain in your POV when it is turned in for storage. All household items and camping equipment must be removed. You may store the following:

- Items such as jacks, tire irons, tire chains, fire extinguishers, nonflammable tire inflators, first aid kits, jumper cables, and warning triangle/trouble lights;

- One spare tire and two snow tires with wheels (either mounted or un-mounted).

## YOUR RESPONSIBILITIES

Following a few simple rules will make storing your POV much easier. Failure to follow these rules may cause the POV Processing Center to refuse your POV for storage. Service member MUST provide emergency contact information including their OCOUNS duty station and at least **ONE** point of contact in CONUS. This information is necessary should the need arise to contact you while the vehicle is in storage.

# **At CONUS origins:**

- Have seven copies of your orders with amendments, and a letter of authorization signed by the ITO/TMO.
- Ensure your POV contains a **FULL** tank of fuel (gasoline or diesel)
- All fluids must be fresh and at the proper levels when the POV is turned in for storage.
- Ensure all leaks have been repaired. POVs showing any type of fluid or oil leaks will not be accepted.
- Ensure a fresh battery is installed, especially if current battery is more then two years old. Batteries will be tested to ensure readings are between 11.5 to 13.2 volts. If battery readings are below these levels, members will be advised that it is probable that battery will require replacing while in storage at the member's expense.
- Make sure your POV is in a safe and operable condition when you turn it in at the VPC. Vehicles that are inoperable or not safe will not be accepted.
- Make sure your POV is clean. The VPC will not accept a POV laden with dirt, soil, mud or similar matter, to include the undercarriage.
- Empty the glove compartments, except for all required items.
- Turn off or otherwise disconnect installed **auto alarm or anti-theft device** prior to turn-in.
- Have in your possession a valid driver's license, proof of ownership (title and registration), and a photo ID.
- Have in your possession a complete set of keys, to include gas cap and wheel lock keys, if necessary, upon delivery to the vehicle processing center. Retain a complete set of duplicate keys and have them with you when you pick up your POV.
- There must be a signed letter of authorization, simple power of attorney, or other acceptable evidence of agency if someone other than the service member delivers vehicle. (Not required if spouse is named in the PCS orders.) Here's an acceptable example:
  - "I hereby appoint (name of agent) as my agent for the delivery of my privately owned vehicle (vehicle and ID number) to the appointed military storage facility, and I appoint him/her my

attorney-in-fact to sign all documents required for the delivery of my vehicle for storage."-Ensure your agent has proper civilian identification and all other documentation required to store your POV.

- Provide a forwarding valid address, phone number or email address where you may be notified if repairs to the vehicle are required to maintain the storage vehicle.
- Ån inspector will inspect the POV with you. When the inspection is completed, you and the inspector will sign DD Form 788, "Private Vehicle Shipping Document" or commercial equivalent, "Storage Accessory Condition & Declaration" form, and the "Vehicle Storage Checklist". You will be provided copies of all forms as a receipt for your POV. These copies will be required when you pick up the vehicle, and it will be required by the military claims office should you file a claim for loss or damage to your POV, and only the person turning in the POV will be allowed in the inspection area.
- Make sure you read the liability statements presented to you by the contractor at the time of turn in.

# At OCONUS origins:

- Have seven copies of your orders with amendments, and a letter of authorization signed by the ITO/TMO.
- Ensure your POV contains less than **one-fourth** tank of fuel (gasoline or diesel).
- All fluids must be fresh and at the proper levels when the POV is turned in for storage.
- Ensure all leaks have been repaired. POVs showing any type of fluid or oil leaks will not be accepted.
- Ensure a fresh battery is installed, especially if current battery is more than two years old. Batteries will be tested to ensure readings are between 11.5 to 13.2 volts. If battery readings are below these levels, members will be advised that it is probably that battery will require replacing while in storage at he expense of the member.
- Make sure your POV is in a safe and operable condition when you turn it in at the VPC. Vehicles that are inoperable or not safe will not be accepted.
- Make sure your POV is clean. The VPC will not accept a POV laden with dirt, soil, mud or similar matter, to include the undercarriage.
- Empty the glove compartments, except for required items.
- Turn off or otherwise disconnect installed auto alarm or anti-theft device prior to turn-in.
- Have in your possession a valid driver's license, proof of ownership (title and registration), and a photo ID.
- Have in your possession a complete set of keys, to include gas cap and wheel lock keys, if (applicable), upon delivery to the Vehicle Processing Center. Retain a complete set of duplicate keys and have them with you when you pick up your POV.
- There must be a signed letter of authorization, simple power of attorney, or other acceptable evidence of agency if someone other than the service member delivers vehicle. (Not required if spouse is named in the PCS orders.) Here's an acceptable example:
  - "I hereby appoint (name of agent) as my agent for the delivery of my privately owned vehicle (vehicle and ID number) to the appointed military storage facility, and I appoint him/her my attorney-in-fact to sign all documents required for the delivery of my vehicle for storage."
- Ensure your agent has proper civilian identification and all other documentation required to store your POV.
- Provide a valid address where you may be notified if repairs to the vehicle are required to maintain the storage vehicle.
- An inspector will inspect the POV with you. When the inspection is completed, you and the inspector will sign DD Form 788, "Private Vehicle Shipping Document" or commercial equivalent, "Storage Accessory Condition & Declaration" form, and the "Vehicle Storage Checklist". You will be provided copies of all forms as a receipt for your POV. These copies will be required when you pick up the vehicle, and it will be required by the military claims office should you file a claim for loss or damage to your POV, and only the person turning in the POV will be allowed in the inspection area.
- (Members may check status of POV at:www.whereismypov.com)
- Make sure you read the liability statements presented to you by the contractor at the time of turn in.
- The representative will have the member complete/sign the Import Declaration (DOT HS-7), where applicable, EPA Form 3520, where applicable, the Personal Property Declaration (1252), where applicable.

#### LOSS AND DAMAGE

When picking up your POV:

- Carefully inspect the exterior and interior to determine if there are any new damages.
- Make sure items left in the POV at the origin terminal are still there.
- Carefully and completely list any loss and all damages to your POV on your vehicle shipping document, DD Form 788 or commercial equivalent. List all loss and damage discovered and why it was not discovered at the final inspection at the pickup point.
- Failure to do this may result in no payment for this damage.

# ADVANCE MEMBER PICK UP NOTIFICATION

The storage facility or managing Vehicle Processing Center will notify, via certified mail, prepick up advise to members 45 days prior to the end of members tour of duty, if the member has not already notified a VPC. Vehicle will be store for a period of 90 days after termination of tour of duty. If no contact is made by the end of 90-day period after termination of service member's tour of duty, the vehicle will be considered abandoned and will no longer be considered a stored vehicle. Vehicles in this category may be moved to an outside facility to wait abandonment processing.

# DELIVERY FROM A STORAGE FACILITY FOR PICK UP AT CONUS/OCOUNS VEHICLE PROCESSING CENTER

The member must provide the contractor with pick-up or forwarding instruction in no less than 30 days of the required delivery date at the designated CONUS VPC or delivery to a CONUS VPC for OCONUS movement. The instructions may be written or emailed. Movement from storage will require seven copies of the member's new orders. In addition, movement to OCONUS points will require the documents specified in MTMC "Shipping Your POV" pamphlet.

## EARLY RELEASE OF POV FROM STORAGE WITHOUT NEW PCS ORDERS

Service members requesting early release of POVs from storage for personal reasons without new PCS orders must be aware of the following:

- Once a POV is released from storage that POV is not authorized further storage at Government expense, to include personally procured storage, until new orders are issued.
- POVs withdrawn from storage without new orders are only authorized movement to the original CONUS turn-in VPC or the CONUS VPC serving the storage site. The POV is not authorized movement to the OCONUS turn-in site.
- The appropriate Military Service must approve any movement requiring transport to another CONUS VPC before movement can occur, and the member must agree to pay any excess costs associated with the move.

# MILITARY SERVICE INSTRUCTIONS

In addition to instructions in this pamphlet the shippers and Military Service Transportation Officials are governed by the instructions provided by the sponsoring Military Service.

## STORAGE SERVICES APPLICABLE UNDER THE GPC CONTRACT:

## Liability:

- Contractor liable for up \$20,000 for loss and damage

- Site settlement for loss and damage claims up to \$500
- Expedited (7 days) settlement for loss and claims not exceeding \$1000

# **Storage Services:**

- vehicles will be placed in storage no later than 14 days after turn-in from member
- storage will be indoors
- vehicles will be stored in accordance with the vehicle manufacturer's recommendations in effect at the time of storage
- vehicles will be washed at the storage site prior to placed into storage
- vehicles will be covered during storage
- fuel stabilizer added as required
- vehicles run every 30 days cycle air conditioning and heat
- move vehicles every 30 days to prevent flat spots on tires
- vehicles kept locked

## **GOVERNMENT ASSISTANCE**

Most VPCs have a Contracting Officer Representative (COR) available on site to assist the member in the movement and storage of their vehicle. If required please ask the contractor to be referred to the COR. In those instances where a COR is not available the member will be put in telephone contact with a COR at another VPC who can assist.

#### POV PROCESSING CENTER INFORMATION

The remainder of this pamphlet provides information unique to each VPC operated by the GPC contractor. Consult your local transportation office to determine the proper VPC from which to ship your POV. NOTE: Hours of operation for each VPC are listed in the applicable section and are strictly adhered to. VPCs are not open on weekends or holidays. Please plan your trip accordingly.

While every effort is made to provide up-to-date information on the POV program, it is important that you consult your local transportation office for any recent changes. We welcome written recommendations to correct or improve this pamphlet. Address your comments to:

Surface Deployment and Distribution Command ATTN: SDPP-PA 200 STOVALL STREET ALEXANDRIA VA 22332-5000

Information regarding the status of POV shipments can be obtained on the worldwide-web at http://www.whereismypov.com
